

# LEGO ROBOTICS SPRING-BREAK CAMP

LOOKING FOR ENRICHMENT  
FOR YOUR CHILD DURING  
SPRING-BREAK? NEED TO  
WORK? OR MAYBE YOU JUST  
NEED SOME "ME" TIME?..

**JOIN US TO EXPLORE STEAM THRU LEGO® ROBOTICS AND  
ENGINEERING, SCIENCE EXPLORATION, ART, AND LOTS MORE.**

It all begins with an idea. Our camps are intended to introduce students to the wonderful world of Engineering and Robotics, hopefully sparking a lifetime of interest in "how things work". Join us for hands-on STEAM learning and fun! **We will build and code many different types of robots using LEGO Education kits.** All robots have motors and sensors, easy-to-follow instructions, and an intuitive AP using icon and word block coding. We will perform experiments, create art and play LEGO games. No experience necessary, **K-5**. You can sign up for morning, afternoon, or both. We begin with a base kit and move to advanced kits, each with 40-60 plus unique projects.

**3.17.25 - 3.21.25**

**Where:** Circle C Community Center  
(7817 La Crosse Ave, Austin, TX 78739)

**When:** MON-FRI: FULL DAY 9:00am-3:30pm,  
MORN. 9:am-12:pm, AFTERN. 12pm-3pm
